a Lesson in the University of The New Covenant

1. I love My people. That's what I want to say to them. That's what I want to get into their hearts and minds and ways of thinking, and acting, acting, acting, acting in the daily affairs of their life and family and work and pursuits of happiness. Tell them I love them and tell them often for how can I tell them enough? How many ways can I say "I love you" to My people, My people that I died for and rose again and intercede for with My father. I, we, are one, and seek oneness with our creation, singleness of hearts, singleness of minds, singleness of pursuits, that only we can fulfill with fulfillment.

2. Ted, look around you. Do you not see Me? Do you not hear Me? All creation is Mine. All creation came out of what I created, created to be with Me and enjoy Me and enjoyment for My creation to enjoy Me—in and with. Appreciate Me more and the things I've created that you take for granted. Take nothing for granted. Look at all the little things, maybe little things to you and others, but the work of My hands produced for your enjoyment and their enjoyment, My creation's enjoyment. [I was in my backyard when I wrote this entire word.]

3. Purity. I like to create and I love to create in purity, and show how to create, that will come to Me in purity. I will accept them no matter how they come to Me but what I'm looking for now is purity. Purity in My house and purity in My people. Purity of heart and motive so I can elevate them and produce many things which I want to create through them.

4. Didn't I let Adam name all the animals? Didn't I give to man the ability to think, formulate, ponder, test, refine, and produce? I did and I still do. I do it still. I involve them in My work and My design so many times when they are yet blind to Me working through them to do what I want done.

5. So many have become so powerful, who omit Me and deny My presence and lust after their own bodies. But purity is key in Me and what I'm doing, for leadership will arise and dominate like never before—leadership of Me and leadership not of Me—leadership of My design and leadership of My allowance. Time marches on. I am time. I am people and I am God and I am moving forth in My people and My creation and all creation will understand that I am moving and I am not asleep, dumb, or dead.

6. I am actively pursuing My people like never before Ted. And I'm pursuing leadership who will lead and create and set free the minds and souls and intellect and thinking of those who I'm calling to My breast to be tender with Me, so they can be tender with others, and let Me use them to do and facilitate and lead and create and carry on what I want done, brought forth, created, birthed, nurtured, matured, to bless My people and My creation that will turn to Me and hear Me and move in My power for My purposes, rather than their purposes.

7. Ted, networks of power are networks of purity and oneness—oneness with each other, oneness in Me—power beyond what you have ever seen displayed. Powers increase. Powers have increased. The clash, the warfare, the significance, the substantitiveness of the battles and the ramifications of that which is happening, happening now and will happen so shortly, are great and mighty, and significant beyond what you think significance is.

8. That's why I call, I call, I call, and I'm calling to My people like I am through you and others. I call, I call, I beg, I plead, I present, I show My creation to all My people and they choose, they choose.

9. Ted, great change, great turmoil. So many think all is well and the past will dictate the future and the future will be just like the past. But Ted, I am ever moving and I move and I fight and I intercede and I listen and I watch and I look for those that will hear Me and hear My voice and hear My servants and know when I speak, and seek maturity and discipline and judgment, to process in wisdom their world in My world.

10. That's why I expand and increase those that come to Me in total totality of surrender, to give them of My world for their world. Their world is so small and often so corrupt and perverted, convoluted, Ted, with right being taught as wrong and wrong being taught as right. Woe to those who teach thus. Woe to those that take My little ones only for their profit and gain and teach, use and abuse them wrongly, against My will.

11. My world is better and My world exists in true reality and permanence and eternity whereas your little world will shrink in dominance, power and importance as My world comes forth in power. And all who are with Me, and are Mine, and will mature in Me, will move forth in power and dominance and be who I designed them to be in power, power, power, and tenderness, not harshness, but wisdom, and wisdom can be very hard, touch as steel and hurt. Truth can hurt, wisdom can hurt, but both are one and bring forth life and not death for those that will seek My truth and My wisdom and operate in the design of Mine, for them, for joy, laughter, and dominance of their area.

12. I am marshalling forces—people to walk and war in My power, in My design for them, as never before. That's why I call and keep calling and seeking the purity and maturity that I seek.

13. I need leaders and I need followers and I need them all to know when to be which and operate in a level of wisdom and truth that lets them, calls them, to be both, often simultaneously, and reject not the idea that I do this and that this is of Me.

14. Didn't I just say to you, "shall the clay say to the potter, fashion me thus?" Ted, remind and remonstrate and define and delineate and teach and example-forth in My people what I am saying.

15. New models of leadership are arising. New models of organizations are emerging, new technologies are being created, new governments are being formed and Ted, all are of My design. For I do rain on the just and unjust and you have said rightly,

that so many unjust are able to receive of Me, ways and things that the just have rejected, for they knew Me only in their little world and not in My big world.

16. Ted, the thinking of My people must change and they must let Me into their intellect and mind and thinking and soul and not just one place of their spirit where they hem Me in. And even when I speak and guide and correct and create through them, they dismiss Me as nothing, nothing, nothing, and put down the creative power that I am and that I come in and that is Me, inextricably, Me. Me Ted. Me. Me.

17. Tell My people to let Me be Me and stop saying and operating in their little worlds with the mentality that they have all the answers and strategies for the end times, for success, for Ted, they are little and the more they say they have of Me, the less, you can be sure, that they actually do.

18. Ted, haven't you learned how much bigger I am and so much more of My character and My heart and desires, in these years, to the point that you have begun to grasp, somewhat, barely, just barely, of My size, My magnitude, My character, My ways and oneness of coming in kindness and touching and healing and bring Myself to them? Yes, yes, yes you have. And I am glad and you are glad and I'm so glad you write, write, write fast and write faster and utilize things to help you publish what I'm doing, what I'm saying, and raising up those who will stand with you, to stand with Me.

19. Ted, I expand and I glorify, I expand and increase, and I glorify and I will glorify all who glorify Me and My name and wear My name proudly on their foreheads, as you do, in tenderness and love. Ted, I want to expand you and I am and I've told you and directed you to do many things and this is just the beginning.

20. Tell My people to prepare for expansion and for increase and for dominance in arenas and areas heretofore, they dominated not. Areas they were powerless in, grasshoppers in their own sight. But Ted, I am coming and those that come to Me and seek correction, who seek discipline, who seek My judgment now, will be counted worthy, if they act and live on My correction and My tender nurture of them, they will be worthy, they will be promoted and elevated to places of honor and create things and ways and networks in levels they can only imagine a part of now.

21. Tell them, tell them to take their place in My world, My big world, and give up their place in their little world. If they will give up their protectiveness in their little world and their self-serving status and assumptions of who I am and how I do things, and come to Me and seek Me for correction, for discipline, for judgment, I will give them beauty for their ashes of littlehood and I will expand and increase and grow them from My nurture, from My breast, from My voice to their ear, from My heart to their heart, and mature them and explain their design on their life that we put there, into them, into their very soul and fabric of their spirit, to be used in power, glory, and honor, and Ted, dominance—not timidity and shyness and withdrawnness and in hiding.

22. I'm calling out those Gideons [Judges 6-7-8] who don't even know their power and heritage and design and asking them to come to Me in a heart that allows Me to elevate them, elevate them, honor the, empower them, freedom them, and activate their

gifts in the knowledge of My design for them like never before in history, not in history Ted, not in the history of man or the world.

23. So much Ted, you have so much and you're getting more and you, Ted, will raise up many armies to develop and mature in Me, for you know Me and you know My tenderness and you know My wrath. You fear Me and you don't fear Me and you understand that so deeply and you must teach it.

24. Teach them to not fear Me but come to My table and sup with Me and drink My cup and My blood and let them give Me of My body and My power and My glory and purify their hearts in purity and humbleness, and that which is Mine and of Me. And Ted, I will glorify them and honor them—you already know—their work, their honor, their power, will exceed yours, and Ted, you take great joy in that, and that's another reason I can use you.

25. Those that you even help birth and mature, in passing you, will you continue to honor and take joy in, realizing there is no competitiveness in Me, in oneness with Me, but doing My design for Me, and who I am in joy and laughter and fulfillment.

26. Ted, tell them, teach them. Great armies of power and supply are on their way to you. Armies bring you supply to fuel you and your armies that are even now forming in Me, forming in Me, forming in Me and My creation, in love, tenderness and maturity.

27. Fear not anything that comes to you or against you as you are Mine and I have spoken forth this day of June 11, 2003, to you, My servant and blessed are those who help you and receive My words to you and through you and who will take action on them and call out to Me and let Me correct, discipline, and judge, so that I mature and bring freedom and fulfillment and they can operate in My design for them, in power, glory, joy and laughter, and dominance, in leadership, leadership.

28. This Ted, is how you will birth leadership, leadership in Me and My world, My big world, helping them exchange their little world for My big world, and operate by My design for them in networks of glory, honor and power and freedom and humility, leading, serving, and maturing, and all birthing forth Me in My creation in honor, power and glory.

29. Thank you Ted. Television, radio, networking, power, all you need will be yours, soon. Align yourself with Me more and mature more and call on Me more and seek more correction and discipline and judgment and I will keep answering your prayer.

30. Ted, thank you, and thank you to all who help My servant do what I want him to do and not stay in your little world but bring freedom and fulfillment to My creation, My people, My people, My life, those who I gave My life for and who now I intercede for, and I think about all the time.

31. With joy and laughter, with ecstasy and freedom, I deliver My words to you. Enjoy what I have written through you and tell them I want them to come to Me and write My words and let Me feed and nurture them at My feet so I can lead and they can lead and

assemble armies and lead in ways I will teach and testify to them about. Tell them you are not special, but you are surrendered. You are a surrender-er, and I want them to be.

32. Tell them I can do and will do all I want to and all I care to, through them, all of them, any of them, young and old, if they will bring Me their entire little world, the entirety of their little world, and give it to Me and exchange it for Me and My big world that I have for them.

33. And Ted, the great adventure will be theirs, theirs, theirs, and they will move in glory, honor, and power, and glory, honor and power and glory, honor, and power, of My doing—expanded, increased, advanced, matured, disciplined, judged, corrected, in such joy, laughter, and fulfillment, and they'll wonder, wonder, wonder why they couldn't see Me and their design like this before.

34. I am Me. I am Mine and you are Mine and I am thine and I seek you and I seek them and I honor you and I want to honor them. Tell them and tell them freely these words today, today, today, and forevermore.

35. I thank you. I thank you. I thank you.
